

IN YOUR MIND

Written by Lisa Lease Vasey & Bruno Latella

V1

I think I've heard your name I've seen you around
Say your gonna make your mark on this town
With someone else's tune someone else's claim
You think she's smiling at you and you think your cool
She just wants your image what about you when
Those old lines she will use she has used before

But all good things come to those who wait
And you can be a star with just a pretty face
But thinking that way will be your mistake

CHORUS

I am a fighter and I will survive
You'd better change or I will leave you behind
I know that you can make it if you try
A rock n roll star but
Only in your mind

V2

Studded guitar with an ego to match
And your new boots don't have a single scratch
And all the ladies will queue just for a chance to meet you

But everything just falls into your lap

Two steps forward and no steps back

You never stop to think of you lack ... oh what you lack

CHORUS

BRIDGE

But times are changing their moving fast

You got to learn from your mistakes or you just won't last

CHORUS

In Your mind

I'll leave you behind

It's just in your mind

Oh yeah

I said in your mind

A rock n roll star but only in your, only in your

Mind It's in your mind
