

OCEAN OF DREAMS

Lyric & melody by Lisa Lease Vasey & Music by Peter Nicholic

V1

I knew a man
Who had tried to make it
Selling his dreams
Now he works the soil
With his hands
And inside he still believes
Cause every time he lost a game
He didn't bury himself
Inside his pain he said
Hold on until the end
And you won't break
But you gotta learn how to bend

CHORUS

Living in the past is so so sad
When will you realize
Learn to leave the past behind
Living in the now
Got to find a way some how
Now is all that is real
As we sail on the ocean of our dreams

V2

I overheard her saying

Sure life can be tough

But I like it that way

And the changes they come from inside you

If you change your place

It won't change your point of view

CHORUS
