

# **DRIFT AWAY**

**Written by Lisa Lease Vasey & Peter Nikolic**

## **V1**

I have been thinking bout you lately  
I can take you where you've never been  
Drifting on a cloud or in a garden  
Never begins but it won't end  
And just the other night while I was sleeping  
You came into my head  
When I awoke I had been dreaming  
I wanna dream that dream again & again  
And when you're feeling down  
Spinning around

## **CHORUS**

Drift away, drift away again  
Drift away, Drift away again

## **V2**

I have seen places of great beauty  
And I've been inside your pain  
Out on the North wind you are drifting  
And there you will remain  
Until you're feeling free  
I can give you what you need

### **CHORUS**

I have been thinking bout you lately

And wondering how you've been

Wish I could hear your voice call your name

And touch your face again

And if at night while you are sleeping

I come into your head

Don't let it be a secret your keeping

Just call my name and I'll be there

And if you're thinking bout me

I can give you everything you need

### **CHORUS**

Won't you drift away

Can drift away to sea

Drift away with me
