

ENEMY

Written by Lisa Lease Vasey

V1

I can see the lies behind

Your smile

You see I recognize

Greed in your eyes

And I feel like I've never known you

I've certainly never seen you true

Now I look at you

All I see

CHORUS

Enemy

Tryin to work me over

You're pushing me

Couldn't hit me much lower

Enemy

You won't get you way this time

Now you've crossed my line

I didn't invite you in so

Come on

See what you find

V2

Sneaking round you spread your lies

When all the while

You're smiling as you push the knife

Into my back

You know it burns me

You tried to hurt me

And you thought it wouldn't show

How far

You would go

CHORUS
